Full Customization Services on Fine European Designs

A commitment to the high-end luxury market allows custom furniture designers to masterfully orchestrate a well-rounded approach to exceptional product offerings, timely fulfillment, and quality customer care.

With a collection boasting more than 5,000 items, even the most discerning homeowner can find the ideal piece to suit their

home, whether they have a simple everyday project or an extraordinary special commission. A complete collection of unique furniture products and sophisticated decorative accent pieces will enhance any living space. Your interior décor should be a work of art, creating perfect harmony in any surrounding.

Choose from a comprehensive collection of the finest hand-carved and handcrafted furniture. Each individual piece is made of solid wood with handpicked exotic veneers and precious bronze and gold gilding when applicable. A recently introduced collection characterizes the streamlined beauty of Italian design. The line includes sleek and elegant family room, living room, and dining room sets, including

tri-tier edge glass-top dining tables that are suitable for both formal and casual dining.

A high-end furniture designer offering full customization services allowing homeowners to fine tune each piece of furniture. With more than 100 unique wood finishes and a wide selection of premium in-house fabrics, homeowners can also take advantage of other designer benefits, including the choice of full upholstery versus intricate can design, producing items in muslin, premium leather samples, and modifications to bronze and marquetry.

In-stock items are available for quick shipment or pickup, and airfreight is also available for custom orders upon request.

For more information, you can call Josephine Homes at 415-252-0959 or visit their newly expanded 20,000-square-foot showroom on the SF Mart's second floor located at 1355 Market St. in San Francisco. You can also visit them online at www.JosephineHomes.com □
